

Square Side Table

(ST24U unassembled kit)

Tools Required:

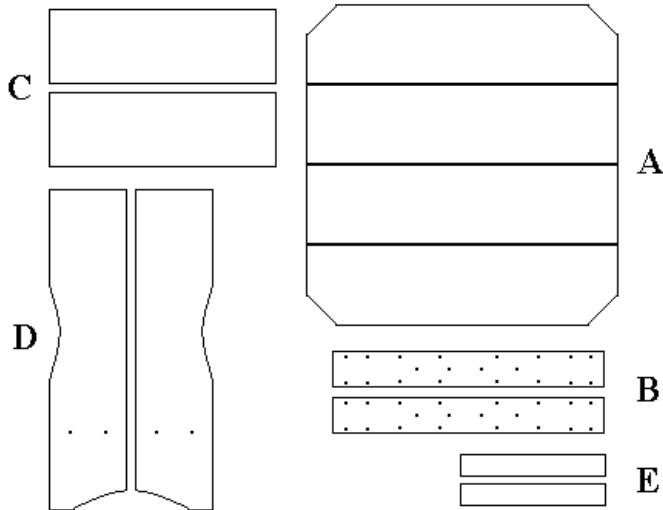

Power screwdriver with a #2 Philips or Robertson bit: Use of wood glue when assembling is optional. Before assembly please check package contents to verify all parts are accounted for.

Package Contents:

- (A) Table Top Boards ...4
- (B) Cleat ...2
- (C) Shelf ...2
- (D) Leg ...4
- (E) Nailing Strip...2

Hardware:

- 1- $\frac{1}{4}$ " screw ...32
- 2" screw ...16
- 1- $\frac{1}{2}$ " nail ...8

Step 1: Build Leg Assembly

- Arrange 2 legs tightly together along straight edge and make flush on top.
- Measure 4 inches up from bottom foot and attach nailing strip across both legs with 4 nails.
- Stand leg assembly upright – align 4 middle holes in cleat onto top of legs and attach using 2 inch screws.
- Repeat for other leg assembly.

Step 2: Attach Shelf

- Set shelf onto nailing strip – align with holes in one leg and attach to leg using 2 inch screws.
- Attach other end of shelf to opposite leg as above.
- Set a 2nd shelf onto nailing strip - make tight with existing shelf and attach to other leg using 2 inch screws.

Step 3: Assemble Table

- Arrange table top boards unfinished side up and tightly together in a square – mitered corners to the outside.
- Center leg assembly over table boards and attach legs to bottom side of table top using 1 $\frac{1}{4}$ inch screws.
