

TeaRose 3pc Set

[Each box contains (1) table and (2) chairs]

Table Assembly Instructions

***WARNING* Heavy! Handle with care! Keep children away from assembly area!**

Tools Required: Adjustable wrench and Slotted screwdriver (- minus driver).

Part List:

Table Top	1pcs
Table Legs w/adj. leveling pads	3pcs
Center Plate	1pcs
M8 Slotted stud bolts (Headless)	6pcs
φ8 Lock Washers and Nuts	6sets
φ20 Flat Washer	6pcs
M6 Slotted bolts	3pcs
φ6 Flat Washer, Lock Washer and Nut	3sets

Assembly Instructions:

It is suggested that you assemble product on a soft surface to avoid any damage to the finish.

- 1st. Place the table top on a soft surface upside down. Thread the M8 slotted stud bolts into the predrilled and tapped holes in the table top. Using a slotted screw driver tighten the M8 slotted stud bolts. **Do not over tighten as damage or thread stripping could occur.** Next attach the Table Legs to the Table Top by aligning the (2) thru holes in the Table Leg with the M8 slotted stud bolts and sliding them thru the holes in the Table Legs. Place a φ20 Flat Washer, a φ8 Lock Washer and Nut in this order onto each of the M8 slotted stud bolts. Only hand tighten each nut at this point. Repeat this process for the (2) remaining legs.
- 2nd. Insert the (3) M6 Slotted Bolts into the (3) predrilled thru holes of the Center Plate. Align the (3) M6 Slotted Bolts in the Center Plate with the (3) predrilled thru hole in the (3) Table Legs Center Plate support tabs, then slip the bolts thru the holes. Place a φ6 Flat Washer, a Lock Washer and a Nut in this order onto each of the (3) M6 Slotted Bolts. Only hand tighten the nuts at this time.
- 3rd. Stand the table upright. Place the table onto a flat level surface. Align the Table Top, Center Plate and Table Legs so the table is level and the legs are evenly spaced. Using an adjustable wrench tighten all of the nuts until the table is firmly assembled and level. **Do not over tighten the nut as damage or breakage may occur.** You may also use the adjustable leveling pad at the bottom of each leg to more finely level the table if needed.

Caution – This table is constructed of cast metal and is brittle. Never force any part of the assembly and do not over-tighten the fasteners, severe damage may occur.

Oxidation of cast iron: The cast iron component of the product is finished with a powder coating process that protects the iron from rusting. However, due to the nature of the iron, rusting is inevitable. It is recommended that the consumer touch up any surface that is scratched or damaged due to wear and tear. Applying an epoxy clear coating is recommended once a year.

Aluminum: The products with aluminum components please be reminded that aluminum is soft metal it is therefore necessary to exercise caution when tightening nuts/bolts/screws on aluminum parts to prevent damaging the threads on the metal.

Solid Brass Fasteners: The fasteners provided are made with solid brass. This item will tarnish after weathering. A brass polish can be used to keep the screws shiny or you can leave it untouched to give it a patina/antique look.

Weathering of wood: The wood component of the product is treated with a penetrating oil stain that is designed to protect from the elements. However, it is recommended to re-stain the wood once a year (depending on the weather conditions in your area) to restore the beauty of the product and to prolong the life of the wood.

Please do not return product to place of purchase – for customer service issues please call 1-866-656-8666 to speak with customer service between the hours of 9am and 5pm Eastern Standard Time. You may also fax or E-Mail any questions or comments to 1-248-652-1105 / sales@oakland-living.com.
