Cabbage Hill Bench assembly for 4 ft. and 5 ft. Bench

Tools: Electric or cordless drill with phillips bit - (recommend outdoor wood glue - Titebond II)

To assemble match numbers (1 to 1) etc. to make bench as shown in picture.

1. Lay bench top upside down on table top.
2. Center leg assemblies on outside of braces (numbers to inside). Screw w/2½” screws from inside (2 each side in pre-drilled holes).
3. Install stretcher (2x4) using 3” screws, between leg assemblies as in picture (pre-drilled holes to outside)

4. Install braces as shown using 2½” screws on stretcher and 2” screws on top.
5. (optional) Install plugs in holes using glue.
